**SQL for Data Science**  
**SQL Problem Solving**  
**SQL for Data Science Capstone Project**

Jan 20, 2026

## José Ignacio Rubio

has successfully completed the online Specialization

# Learn SQL Basics for Data Science

This Specialization is intended for a learner with no previous coding experience seeking to develop SQL query fluency. Through four progressively more difficult SQL projects with data science applications, you will cover topics such as SQL basics, data wrangling, SQL analysis, AB testing, distributed computing using Apache Spark, and more. These topics will prepare you to apply SQL creatively to analyze and explore data; demonstrate efficiency in writing queries; create data analysis datasets; conduct feature engineering, use SQL with other data analysis and machine learning toolsets; and use SQL with unstructured data sets.

A cluster of five handwritten signatures in black ink, including "Sadie St. Lawrence", "Conor Murphy", "Katrina Glaeser", "Don Noxon", and "Brooke Wenig".

Sadie St. Lawrence, AI Strategy Consultant;  
Katrina Glaeser, Data Scientist at Marco Polo;  
Brooke Wenig, Machine Learning Practice Lead at Databricks; Conor Murphy, Data Scientist and Consultant at Databricks; Don Noxon, Information Technology Research Data Scientist at Intel Corporation

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
